DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I: The specifics being a display device having two picture element electrodes in each display region severally connected through interconnections on the gate electrode layer as disclosed in the first and seventh embodiments, Figures 1-8, 24, and 25.

Species II: The specifics being a display device having two picture element electrodes in each display region connected through U-shaped picture element electrodes as disclosed in the second embodiment, Figures 9 and 10.

Species III: The specifics being a display device having three or four picture element electrodes in each display region severally connected through interconnections on the gate electrode layer as disclosed in the third and fifth embodiments, Figures 11-14 and 18-21.

Species IV: The specifics being a display device having three picture element electrodes in each display region connected through U-shaped picture element electrodes as disclosed in the fourth embodiment, Figures 15-17.

Application/Control Number: 10/737,183

Art Unit: 2871

Species V: The specifics being a display device having two picture element electrodes vertically arranged in each display region connected through interconnections on the gate electrode layer as disclosed in the sixth embodiment, Figures 22 and 23.

Species VI: The specifics being a display device an IPS display device having three picture element electrodes in each display region connected through interconnections on the gate electrode layer as disclosed in the eighth embodiment, Figures 26-28

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to

Art Unit: 2871

be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Contact Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael H. Caley whose telephone number is (571) 272-2286.

The examiner can normally be reached on M-F 8:30 a.m. - 5:00 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Kim can be reached on (571) 272-2293. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
